

TAKE A WALK ON THE WILDSIDE!!!

Naugatuck River - Saturday, April 23rd, 2016

waterburyobserver.org

Are there really eagles and ospreys along the Naugatuck River? Has it fully recovered from its early polluted days? Can drones be used for conservation purposes? Ask Kevin Zak of the Naugatuck River Rival Group on Earth Day Weekend, Exact Time and Place TBA.

Can you find these frogs? What kind of habitat should you seek out? Find out on Saturday, May 21st, 10 AM, when reptile and amphibian expert Dennis Quinn leads a herpetology walk at the Gunntown Passive Park and Nature Preserve.

What is happening to the Monarch Butterfly and what is being done about it? Take a butterfly/moth walk with Al White, biodiversity director at the Gunntown Passive Park & Nature Preserve on June 4th, 10 AM. This program is part of the 2016 Ct. Trails Day Event.

Sponsored by Naugatuck Recreation Dept. and the Committee for a Cultural/Environmental Center – Gunntown Road.
